21 September 2011

To Whom It May Concern,

By the end of September I will have been Dominika's student and a client of 2B Language Consulting for a year and two months.

My language skills have improved significantly – my vocabulary is now more extensive and my pronunciation is getting better and better. I started to communicate more fluently and finally I can express what I want to express, using proper words, tenses and phrases.

I strongly recommend Dominika's methods of teaching as very effective, flexible and attuned to the needs and preferences of her students. In a word – it's hard work, a lot of fun and real progress.

Sincerely,

Dąbrowka Mirońska
